

# Progressive Growth Hydroponics

#41 – 1925 Bowen Rd. Nanaimo BC / #111 – 1790 Island Hwy. Victoria BC 1-800-405-GROW

## Heavy Harvest Outdoor Recipe

### Use from May 1<sup>st</sup> to June 21<sup>st</sup>

Directions for planting in the ground:

In a 5 gallon hole (approx 11" wide by 14" deep)  
Mix in 1/3 cup of Spring Blend & 50g of Dolpril Lime with natural soil.

Directions for planting in Pots or Buckets:

In a 5 gallon pot or bucket  
Mix in 1/4 cup of Spring Blend & 50g of Dolpril Lime with natural soil.

If you are using Pro-Mix instead of natural soil the Lime is not required

Be sure to mix evenly and then just water the plants when necessary

### Use from June 21<sup>st</sup> to August 7<sup>th</sup>

Directions for plants in the ground:

Dig a 1" deep by 1" wide trench around the plant 10" away  
Mix in 1/3 cup of Summer Blend.

Make sure to put the nutrients in evenly, then cover trench with soil

Directions for plants in Pots or Buckets:

Dig a 1" deep by 1" wide trench around the outside of the pot  
Mix in 1/4 cup of Summer Blend.

Make sure to put the nutrients in evenly, then cover trench with soil

### Use from August 7<sup>th</sup> until Finished

Directions for plants in the ground:

Dig a 1" deep by 1" wide trench around the plant 10" away  
Mix in 1/3 cup of Fall Blend.

Make sure to put the nutrients in evenly, then cover trench with soil

Directions for plants in Pots or Buckets:

Dig a 1" deep by 1" wide trench around the outside of the pot  
Mix in 1/4 cup of Fall Blend.

Make sure to put the nutrients in evenly, then cover trench with soil.

Be sure to water with lots of water for the last week or so

Remember when adding the Summer & Fall Blends to be careful not to disturb the roots

It is also very important that it be spread out in the trench evenly. Having large pockets in one spot can burn the plants.
