

# THOM'S CUSTOM RECIPE

## ROOTED CUTTINGS (18-24 HOURS OF LIGHT)

	MICRO	GROW	BLOOM	ROOTS EXCELUTATOR	DRIP CLEAN
Week 1	2.5ml	5ml	2.5ml	1ml	0.4ml

### When Transplanting:

Pre Soak grow medium with 1ml / gallon of Roots Excelurator & water  
First watering after transplant also use Roots Excelurator & fresh water.

**ALL VALUES ARE PER GALLON**

## VEGETIVE STAGE (18 HOURS OF LIGHT)

	MICRO	GROW	BLOOM	FULVIC	MULTI ZEN	ROOTS EXCELUTATOR	DRIP CLEAN
Week 1	5ml	10ml	3ml	8ml	2ml	1ml	0.4ml
Week 2	6ml	10ml	3ml	8ml	4ml	1ml	0.4ml
Week 3	6ml	14ml	3ml	8ml	4ml	1ml	0.4ml

**For Soil Growers:**  
All transplanting should be done at least 1 week before switching to flower.

### Transition to flower: (hardest time of a plants life)

All transplanting should be done. Make sure daytime temp is around 80°.

Very important that nighttime temperatures stay above 70°, this will improve your internodal spacing & reduce stretching.

## FLOWERING STAGE (12 HOURS OF LIGHT)

	MICRO	GROW	BLOOM	FULVIC	MULTI ZEN	CARBO LOAD	BUD BLOOD	BIG BUD	KOOL BLOOM	DRIP CLEAN
Week 1	6ml	8ml	8ml	8ml	4ml	4ml	1g - 2g			0.4ml
Week 2	6ml	3ml	12ml	8ml	4ml	4ml		1g - 2g		0.4ml
Week 3	7ml	3ml	14ml	8ml	4ml	4ml		2g		0.4ml
Week 4	8ml	4ml	16ml		4ml	4ml		2g		0.4ml
Week 5	8ml	4ml	16ml		4ml	4ml		2g		0.4ml
Week 6	8ml	2ml	18ml		4ml	4ml			1.5g	0.4ml
Week 7	8ml		20ml		4ml	4ml			1.5g	0.4ml
Week 8	8ml		20ml		4ml	4ml			1.5g	0.4ml

Week 9 Rinse stage – Fresh water only for entire week

### Vegetive & Flowering Time:

Use week 3 of veg formula for all veg weeks after week 3

If your flowering cycle is only 8 weeks, skip week 4

If your flowering cycle is 10 weeks, repeat week 4 twice

### For Mother Plants:

Use week 2 of veg formula for mother plants for all weeks after the 2<sup>nd</sup> week. Give just fresh water every 4<sup>th</sup> watering

### Rinse stage:

Use fresh water only for minimum 7 days (we go 10-12)

### If your plants become stressed at any stage:

Raise the lights 12" to 18" Higher than normal,  
Water plants with 1ml / gallon of Roots Excelurator & fresh water for 2 watering's, when plants show signs of growth again, continue with regular feeding program.
